FITZGERALD GETS BACK AT MAJOR SYLVESTER

Opposition to Increased Salary Due to Episode on the Avenue Two Years Ago.

Through an objection raised by Repre-
sentative Fitzgerald of New York in the
course of the consideration of the Dis-
trict appropriation bill in the House yes-
terday the provision for increasing the
salary of Major Richard Sylvester, the
Superintendent of Police, from \$3,300 to
\$4,000 was stricken out of the measure.
Mr. Fitzgerald's objection to the in-
crease was largely based upon personal
grounds, and afforded him satisfaction for
a sore grievance which he has had
against the Major and Superintendent
for nearly two years.

The controversy had its inception on
last inauguration day, when Represen-
tative Fitzgerald, who, while accom-
panied by Representative Ruppert and
Representative Rordian, attempted to
cross the Avenue, and was arrested and
subjected to indignities by a policeman.
He and his friends were unable to ob-
tain redress; the officer was not reprim-
anded, but instead, he was promoted to
be a sergeant a short time afterward,
although, it is said, that this action
had nothing to do with the Fitzgerald
case. A dispute resulted between the
Representative and Major Sylvester, and
Mr. Fitzgerald not having been afforded
satisfaction had his inning yesterday.
When the item increasing the salary of
the Superintendent was reached, Mr.
Fitzgerald raised the point of order that
it was new legislation, and hence under
the rules not allowable upon a general
appropriation bill. After a brief discus-
sion, the chairman, Representative Gros-
venor, sustained the point, and the item
went out.

It is understood that Mr. Fitzgerald
will carry the fight to the Senate if an
effort is made to restore the provision
for the increase of salary in that body.
With the changes stated, and several
minor alterations the District appropria-
tion bill was passed late yesterday
afternoon.

It is said the real trouble between the
two men was not so much due to the
dispute between the head of the police
department and a Representative from
New York as over the publication in a
Brooklyn newspaper of an interview
about the affair with Major Sylvester,
which he said that Representative Fitz-
gerald had acknowledged himself in the

wrong. Mr. Fitzgerald announced on
Monday that he would oppose granting
the increase in Major Sylvester's salary,
and it is understood that a conference
was held between Speaker Henderson,
Representative Fitzgerald, and Major
Sylvester at the Capitol, in which the
Speaker endeavored to get Mr. Fitz-
gerald to withdraw his opposition.

An endeavor was also made by Repre-
sentative Mudd to strike out that portion
of the bill which legislates Chief Dutton
out of his position as the head of the
Fire Department, but without avail.
Unless the Senate should take action
and the conferees agree to the change,
Chief Dutton's retirement will soon
ensue.

Representative Dalzell of Pennsyl-
vania made a strong effort to increase
the salaries of the ten justices of the
peace of the District to \$2,000, but his
amendment was voted down.

When the section relating to the Fire
Department was taken up Mr. Mudd,
of Maryland raised a point of order against
the phrase stipulating that the Chief
Engineer should have "had at least five
years' actual experience as a member
of some organized municipal fire de-
partment." The phrase was aimed di-
rectly at Chief Dutton. Mr. McCleary
defended it, and was sustained by the
Chair.

Mr. Fitzgerald also took another whack
at Major Sylvester when the provision
in the bill appropriating the sum of
\$20,000 for the miscellaneous expenses
of the Police Department and for the
"prevention and detection of crime" was
taken up. It was stipulated that the
disbursing officer of the District should
pay to the Superintendent of Police \$300
upon requisition to be used solely for
the "prevention and detection of crime,
the money to be accounted for monthly
on itemized vouchers."

This method Mr. Fitzgerald character-
ized as entirely too loose, and he raised
a point of order that there was no limi-
tation provided as to how often the
Superintendent might ask for sums of
\$300. An amendment was then passed
providing that the requisition should
only be made for money when it was
needed to send an officer after a criminal,
which should be specified in the
requisition.

MISSISSIPPIANS ELECT OFFICERS FOR A YEAR

Interesting Meeting of Society at
Schmidt's Hall.

About 150 Mississippians attended the
January meeting of the Mississippi So-
ciety held at Schmidt's Hall in Ninth
Street last evening, when the officers of
the past year were re-elected and ad-
dresses were delivered by Senator A.
J. McLaurin and Representative John
Sharp Williams. A musical program was
given by several members of the society.
President Clark introduced Mr. Wil-
liams as one of the "smartest men" and
"the best orator" in the House, and
Mr. Williams delivered an interesting and
humorous address, dealing largely with
the informality and friendship among
all Mississippians.

Mr. Williams was followed by Senator
McLaurin, who also dwelt on the mis-
conceptions of the people of the States
far north of them and spoke particularly
of the wisdom of the bears who ran
into Arkansas and other States, in order
to avoid the President of the United
States and his coteries; then flocked back
to walk in the streets of the principal
cities.

Following is the list of the officers
for the ensuing year: President, Char-
les M. Clark; first vice president, H.
MacFulghran; second vice president, A.
B. Hurt; secretary, J. U. McCormick;
corresponding secretary, Mrs. Zoe Beall;
financial secretary, Percy Edmonds; re-
porter and historian, Mrs. Susie F. Ram-
sey. Board of managers—Captain Fred
Beall, Hon. Harry Peyton, T. Percy Gul-
ton, Gen. J. H. Brinker, and Dr. Oscar
Wilkinson.

CONSUMPTION IS CONTAGIOUS

All physicians admit that consump-
tion is contagious.
As the sputum dries, the bacilli, or
germ poison, which it contains, are
thrown into the atmosphere, and as
laden with catarrhal discharges, they
are breathed into weak lungs, these
poisons take root and consumption is
developed. The only way to prevent
this disease is to breathe into the air
pipes or bronchial tubes the vapors of a
healing oil laden with germ-killing reme-
dy. No medicine taken into the stom-
ach has ever yet cured genuine consump-
tion.

According to the World's Consumption
Congress of Physicians, which met in
London a year ago last July, the only
germ-killing remedy that has been suc-
cessful is the one discovered by Prof.
Koch, of Berlin, and manufactured un-
der the supervision of the German gov-
ernment and is called the "Koch Tubercu-
line."

Although as an injection it failed, it
has been wonderfully successful when
given by the Koch inhalation process.
This process was first introduced into
this country by Dr. Edward Koch, after
whom the system was named, and is
administered by the German-American
Koch Lung Cure Co., 730 Eleventh Street,
Washington, D. C.

let, containing testimonials and describ-

WISH REPRESENTATIVE FORM OF GOVERNMENT

Federation of Labor Discusses Needs of
the District.

The executive council of the American
Federation of Labor resumed its session
at headquarters at 9 o'clock yesterday
morning, all members being present
except Vice Presidents John Mitchell
and Max Morris.

In accordance with the instructions of
the New Orleans convention of Amer-
ican Federation of Labor, the resident
members of the executive council in
Washington were instructed to make
every effort possible to secure a rep-
resentative form of government in the
District of Columbia. President Gompers
reported that a petition to that effect
had already been presented to the
President, and that an organization has
been formed of representative labor
men and other citizens located in Wash-
ington to carry this effort to a success-
ful termination.

The matter of the illegal and inhuman
treatment of Porto Rican laborers who
had been induced to go to Hawaii,
which was considered by the New Or-
leans convention, was taken up and a
thorough investigation into the matter
ordered.

The question of the coming of Chinese
to the Philippine Islands which was or-
dered investigated by the New Orleans
convention, was considered and finally
referred to the representative of the
American Federation of Labor who is
to make an investigation into the labor
conditions of Hawaii, the Philippines,
Japan and China.

NORTHEAST CITIZENS ON THE UNION STATION

Committee Presents Views to District
Commissioner Biddle.

Evan H. Tucker and W. J. Frizell, re-
presenting the Northeast Washington Cit-
izens' Association, called upon Commis-
sioner Biddle yesterday afternoon and
left with him a written statement of
their views upon the proposed union sta-
tion. Certain objections to the bill as
it now reads were advanced, and the
Commissioner was urged to do his best
to have the wording changed by the con-
ference committee, who will take up the
measure tomorrow.

The chief contention of the associa-
tion is that H Street should pass over
the viaduct by means of a bridge, and
that the proposed construction should
be on a grade to admit of that.

"The bill provides for the erection of a
monumental station fronting on Massa-
chusetts Avenue, to be approached from
the south through a tunnel under First
Street east, according to plans on file in
the office of the Engineer Commissioner.

The contention by the railroad officials,
under these plans, is that the grade of
the tunnel should be on a level that
would carry the tracks over H Street at
such an elevation as to require a reduc-
tion in the present street grade of about
six feet at the intersection of Second
Street east. The contention by the En-
gineer Commissioner favors a level that
would carry H Street over the tracks on
an easy grade from Second Street to
within a hundred feet of North Capitol
Street, the roadway and sidewalks to be
to all appearances a perfect street, with
walls of sufficient height, where neces-
sary, to obscure a view of locomotives
and trains on the grade below."

Colonel Biddle listened attentively to
the reading of the communication, and
discussed the matter informally with the
committee. He said he would take the
matter under consideration, and act as
he might deem best under the circum-
stances.
